The average African walks up to 5 miles per day to get drinking water. Many times the water is filled with disease that causes illness and death. I am walking to raise money to bring clean water to thirsty people. All net proceeds will help develop improved water sites. I would like to raise at least \$100. You may sponsor me for any amount you desire. Your donation may either be given to me or make check payable as below. Thank you for helping to heal the world by providing clean drinking water to those in need.

Please make your check payable to Rotary Sunrise Foundation * PLEDGES ARE DUE THE DAY OF THE WALK.
